Monastery

Ispirato alle antiche cattedrali e ai vecchi monasteri, è il connubio delle pietre, onici, travertini e marmi. L'usura del tempo, l'aspetto morbido e invecchiato, in alcune parti lucido, emerge in questa fusione di materie differenti tra loro.

Inspired by ancient cathedrals and you have old monasteries, it is the combination of stones, onyx, travertine and marble. The wear and tear of time, the soft and aged appearance, polished in some parts, emerges in this fusion of different materials with each other.

Effetto 3D

Nuove tecnologie hanno dato la possibilità di ricreare l'effetto di incavi, in natura dati dalla differente consistenza della materia insieme all'usura del tempo.

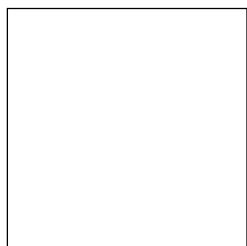

In superficie emergono leggere scanalature che evidenziano un effetto di tridimensionalità.

3D effect

New technologies have given the possibility to recreate the effect of grooves, in nature given by the different texture of the material together with the wear and tear of time.

Slight grooves emerge on the surface, highlighting an effect of three-dimensionality.
